Getting Started

Adding/updating Payment Methods can be found in the **My Account** section of the Short Code Registry

For this User Guide, we will cover how to add a new **Card** as your organization's payment method.

Click on the Payment Method tab following Login.

The screenshot displays the GCH Registrant dashboard. The top navigation bar includes tabs for ACCOUNT DETAILS, MY PROFILE, USER MANAGEMENT, PAYMENT METHOD (highlighted with a red box), and STATUS & VETTING. The main content area is divided into several sections:

- ACCOUNT DETAILS:** Shows ACCOUNT ID (4000019), PROGRAM TYPE (Standard), ACCOUNT CREDIT (\$0), and NUMBER OF LEASED CODES (0). An 'Edit Account Details' button is present.
- Contacts:** Lists the ACCOUNT CONTACT as Greg Osterhout (gosterhout@gchregistrantadminprod@gchtech.com) and a secondary contact field with an '+ Add Contact' button. A 'Manage Contacts' button is also visible.
- Business Details:**
 - Details:** LEGAL ENTITY TYPE (Corporation), MESSAGING ROLE (Application Service Provider), URL (https://www.gchtech.com).
 - Address:** ADDRESS 1 (16192 Coastal Hwy), CITY (Lewes), STATE (Delaware).
- Billing:**
 - Contact:** NAME (Greg Osterhout), PHONE NUMBER (+1 (469) 877-4989), EMAIL (gosterhout@gchregistrantadm...).
 - Address:** ADDRESS 1 (16192 Coastal Hwy), CITY (Lewes), STATE (Delaware).

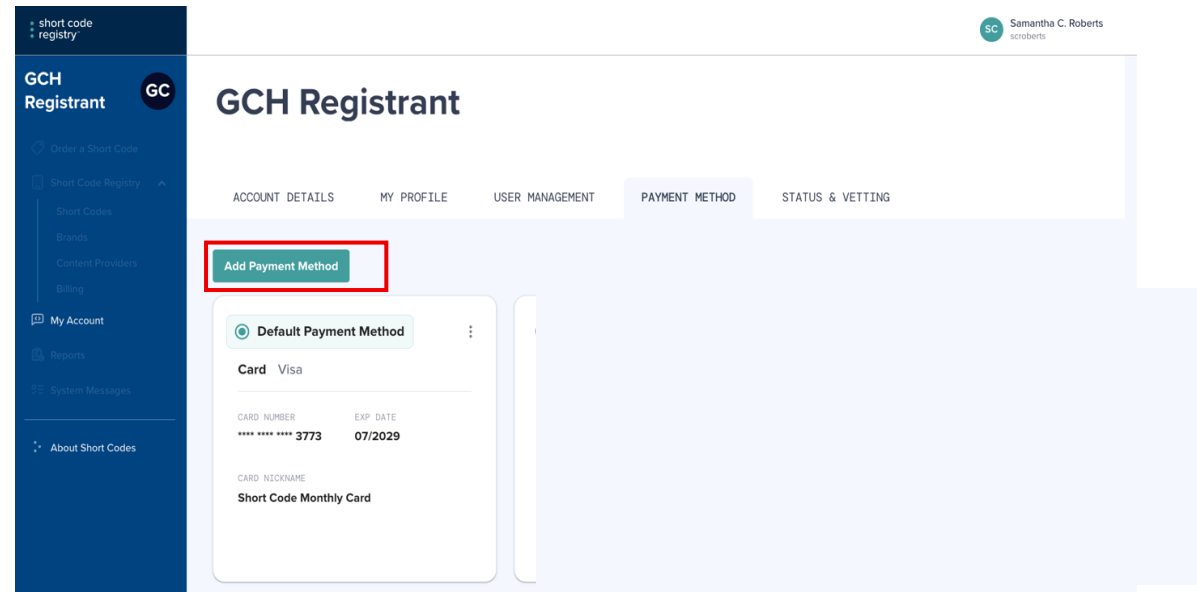

A left sidebar contains navigation options: Order a Short Code, Short Code Registry, Short Codes, Brands, Content Providers, Billing, My Account (selected), Reports, System Messages, and About Short Codes. The top right corner shows the user's name, Samantha C. Roberts (scroberts).

My Account Payment Method

When you first login your account will not have any Payment Methods available – unlike the details found in the My Profile tab, these were not migrated into the new registry.

Click on **Add Payment Method** to add a new payment method (Card or ACH).

NOTE: Wire Transfer and Check are also acceptable payment methods. If you use these options, you will select these as payment options when leasing new code(s) or renewing code(s).

Add Payment Method Card

Once you click on **Add Payment Method**, you will choose **Card**.

To complete the process of adding a **Card**, you need to include the following required fields:

- Name on Card
- [Card Number](#)
- Card Expiration Date
- [CVV](#)
- State
- 5-digit zip code

It is highly encouraged to use the **Card Nickname** field (30 characters in length, alpha-numeric) to help distinguish between multiple cards. The additional fields are optional and for informational purposes only.

Set the credit card as the default payment method to ensure auto-renew is successful.

Click **Save**.

Set as default
Setting this as the default payment method indicates that this payment method will be used for auto-renew.

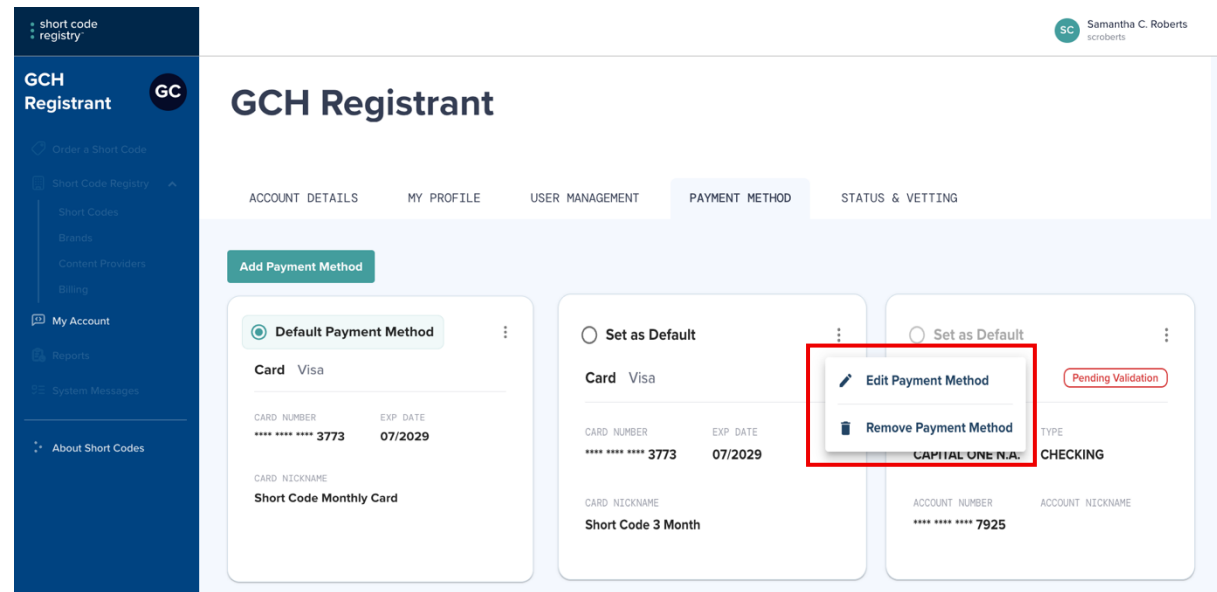

Payment Method

Once you save the card details, the page will redirect to the **Payment Method** tab.

[Default Payment Method](#) - At this point, you can choose which payment method you want to use as the default payment method.

Edit/Remove - Furthermore, you can choose **Edit Payment Method** or **Remove Payment Method** for an existing card. You will need a cards CW to save any edits.

NOTE: If there is only one payment method on the account, it will automatically be marked as the **Default Payment Method**.

Payment Method Remove Payment Method

You may choose to delete a payment method at any time.

A warning dialogue will appear prior to removal to confirm that you would like to remove that payment method.

Note: You may not delete your Default Payment Method. First assign a new default, then you can delete the payment method.

The screenshot shows the 'GCH Registrant' interface with the 'PAYMENT METHOD' tab selected. The interface displays a list of payment methods, each with a 'Set as Default' button and a 'Remove Payment Method' button. A warning dialog is shown over the 'Remove Payment Method' button for the first method, asking for confirmation to proceed.

Remove Payment Method?

Removing this payment method will make it unavailable for future transactions. Are you sure you want to proceed?

Glossary

Card Number - All major cards are accepted for the purchase of Short Code(s); Visa, Discover, MasterCard & American Express. American Express card numbers are 15-digits verses all others which are 16-digits.

Card Verification Value (CVV) - A 3 or 4-digit security code on your credit or debit card, used to verify your identity and prevent fraudulent "card-not-present" transactions.

Default Payment Method - A default payment method must be selected if auto-renew and autopay is enabled on one or more Short Code(s). The only payment methods that can be chosen as a default payment method are Card & ACH. The first payment method entered (Card or ACH) will be marked as the Default Payment Method unless manually changed.
